***Subject**

Senior Surgeon's letter No 970 dated the 3rd September, 1902, about lighting the Victoria Hospital at Bangalore with Mansfield Oil Gas.

Note

In the current year's Medical Budget, the Senior Surgeon had made a provision of Rs. 5000/- for lighting the Victoria Hospital with Gas and for repair of machinery. In returning the provision the Govt. in para 3 of their order No 2087 dated the 31st July, 1902 required the subm of a detailed estimate from the Senior Surgeon for the orders of Govt. The present letter which is subd herewith for orders is addressed with respect to that order. The Surgeon in charge says that he has estimated Rs.

+ S. No. 347

S. No 13

Rs: 4600 for lighting with Gas because he wanted to introduce Gas Geysers into the bath-rooms in addition to gas lights for all the quarters and wards, both opened and ~~upon~~ unopened yet; that he has given up that idea now, and that he is of opinion that a central boiler would be preferable for the Hospital. How and by how much, the alteration involved affects the allotment made has not been reported.

Call for this info.

A.M. 13/9/02

H3 15/9/1902.

Drafted.

A.M. 15/9/02

The above info was called for in this Office docket No 4217 dtd 6/9 the 19th September, 1902. In reply, the Senior Surgeon has forwarded letter No 562 of 26th idem from the Surgeon in charge of the Victoria Hospital, in which that Officer states that the question as to how hot water is to be supplied to the

the different parts of the hospital is a difficult one and is at present under the consideration of the Supg. Engr. and that the alternative of a central boiler instead of Gas Geysers has not been budgetted for as no idea could be formed as to its probable cost."

The provision of Rs: 5000/ made in the current years Medical Budget on account of mansfield Coil Gas is explained as follows: —

86 burners going on at present ———	Rs: 1,720/
44 — do — required when certain asol Quarters and wards are opened.	" 880/
100 — do, being equal to the Gas required for heating purposes: Introduction of Gas Geysers given up, and means for supplying hot water not yet determined — an unsettled item probably.	" 2000/
230	Rs: 4600/
Repair of Machinery	" 400
	Rs: 5000 Budgetted amount

Subd with draft recording the letter.

Dated 18-8-02

General No.303

Sir,

With reference to the Government Proceedings No.2087/337 dated 30-7-02 forwarded with your No.408 dated 13-8-02, I have the honor to explain that the sum of Rs. 5000/- was provided in the Budget bacause I hoped to introduce Gas Geysers into the bath-rooms. However, when in England I went to see the Geysers at work, and was not at all satisfied with them and am of opinion that a central boiler would be far preferable for this Hospital. I had reckoned that the gas which would be required for heating purposes would be about equivalent 100 gas burners. At present we have an average of 86 burners going. When the Steward's, Matron's Nurse's quarters and contageous wards are opened, the number of burners will be about 130 in all- these plus the 100 I had estimated for, for heating purposes amount to 230 in all, and the cost for the year would be about Rs.4600/. Hence my budget for Rs.5000/- under the head of " Lighting with Mansfield Oil Gas.

Do,

The Senior Surgeon

Dated ✓ September 1902

No 4217 Mis 676 & 19/9/02

His letter No 670 dated the 3rd instant in re the provision of Rs. 5000 made in the current Year's Medical Budget for lighting the Victoria Hospital with Mansfield Oil Gas.

In the above, it has been reported that a provision of Rs 5000/- was made in the Budget, because the Surgeon in Charge had hoped to introduced Gas Geysers into the bath-Rooms. Subsequently this was given up and a central boiler is deemed

to

to be far preferable
for the Hospital. The Lemnos Surgeons to
~~It should~~ therefore requested to
~~be~~ report ~~ed~~ how ~~that~~
to what extent, the
proposed alteration
affects the allotment ~~already~~
made in the Budget.

By order.
